

# Oil Field Environmental Incident Summary

**Incident:** 20140430210657      **Date/Time of Notice:** 04/30/2014 21:06  
**Responsible Party:** CONTINENTAL RESOURCES, INC.  
**Well Operator:** CONTINENTAL RESOURCES, INC.  
**Well Name:** OVERLOON 1-34H1  
**Field Name:** UKRAINA      **Well File #:** 26956  
**Date Incident:** 4/30/2014      **Time Incident:** 12:00      **Facility ID Number:**  
**County:** BILLINGS      **Twp:** 141      **Rng:** 98      **Sec:** 34      **Qtr:** SW  
**Location Description:** stubble field and county round r/w

**Submitted By:** Todd Senescall      **Received By:**  
**Contact Person:** Todd Senescall  
PO BOX 268870  
OKLAHOMA CITY, OK 73126

**General Land Use:** Cultivated      **Affected Medium:** Topsoil

**Distance Nearest Occupied Building:**

**Distance Nearest Water Well:**

**Type of Incident:** Other

**Release Contained in Dike:** No

**Reported to NRC:** No

	Spilled	Units	Recovered	Units	Followup	Units
Oil						
Brine						
Other	1	Barrels	0.5	Barrels	1	barrels

**Description of Other Released Contaminant:**

drilling fluid

**Inspected:**      **Written Report Received:** 12/21/2016      **Clean Up Concluded:** 5/20/2014

**Risk Evaluation:**

none

**Areal Extent:**

An 80' X 300' area of county road r/w and stubble field was misted.

**Potential Environmental Impacts:**

soil, vegetation

**Action Taken or Planned:**

Recoverable fluid on location was recovered. The rest will be recovered when equipment is moved. Misted vegetation of of location will be mowed and recovered pending landowner permission. Soil analyses will be conducted to determine if additional remediation is warranted. Nichole Anderson was notified via voicemail.

Driller needs to insure that both mud pumps are off and the top drive is depressurized before rotating out of the stand.

**Wastes Disposal Location:** TBD

**Agencies Involved:** Billings County road superintendent

**Updates**

---

**Date:** 5/1/2014      **Status:** Reviewed - Follow-up Required

**Author:** Espe, Brady

**Updated Oil Volume:**

**Updated Salt Water Volume:**

**Updated Other Volume:**

**Updated Other Contaminant**

**Notes:**

The weather was 63 °F, clear, with wind from the southeast 10-15 mph. The site is actively being drilled for new wells. Drilling mud from the rig misted on the ditch, road, and stubble field on the south side of well pad. The vegetation in the ditch that was impacted has been mowed and hauled away. There is still a little staining on top edge of ditches. The stubble field has not been touched and has not been seeded. Follow-up required to check on vegetative growth.

---

**Date:** 7/7/2014    **Status:** Inspection

**Author:** Espe, Brady

**Updated Oil Volume:**

**Updated Salt Water Volume:**

**Updated Other Volume:**

**Updated Other Contaminant**

**Notes:**

The weather was 67 °F, cloudy, with wind from the northwest 15 to 20 miles per hour. The vegetation in the ditches is growing and looks good. The cropland was never seeded to the south or around the well. There was a piece of equipment parked in the south field; it appears that a pipeline is being placed in the ground. No further follow-up needed at this time.
